Help in the Fight against Cancer

Caring in our Lifetime was formed ten years ago when a friend of the advertising industry in Myrtle Beach, South Carolina, was diagnosed with breast cancer. The organization's mission is to help pay medical bills associated with the disease for local survivors in Horry and Georgetown counties, as well as raising money to help with payment of mammograms for underprivileged women. More than \$250,000 has been raised over the years and the effort continues with many different fundraisers such as our Pink Ribbon Night at the Myrtle Beach Pelicans, Kite Fest and golf tournament. Carolina Regional Cancer Center is a main sponsor.

Who gets Breast Cancer?

Anyone can. The average woman's risk of getting breast cancer before she dies (usually of other things) is 1:10. Most women (80%) who get breast cancer have no "risk factors" (but obviously) the other 20% of Breast Cancer sufferers come from a smaller segment of the population. Men account for 1% of diagnosed Breast Cancers.

Prevention by early detection through self breast exams and mammograms is the best way to combat this disease.

Tournament Sponsorship

This event reflects the gains that can be made in the fight against this horrible disease. Because of sponsors like you, Caring In Our Lifetime is able to make the fight easier on the women dealing with it right here in our community. All proceeds raised for this tournament will stay in Horry and Georgetown counties.

Hole Sponsorship with Team \$450
